

Plymouth Environment Academy Resources – August 3, 2021

Design, workshop and plant resources

- [Living Landscapes in Minnesota – NRCS Guide](#)
- [UMN Extension Native Plants with Plant Selector](#)
- [UMN Extension Master Gardener Program](#)
- [Blue Thumb](#) – Project resources, workshops, plant selector
- [City of Rochester – Landscaping for clean water](#)
- [MPCA's Grow a healthy, no-waste lawn and garden](#)

BWSR resources

- [Pollinator Toolbox](#)
- [Lawns to Legumes](#)
 - No timeline yet for when Lawns to Legumes Individual Support (\$300.00) funding would be available, but people can subscribe for program updates
- [Urban Stormwater Management](#)
- [What's Working For Conservation](#)
- [Vegetation Establishment and Management](#)

Citizen Science

- If gardeners/homeowners are wanting to help with Citizen Science efforts of documenting pollinators and other insects, consider working with the following links (download on phone or use a desktop computer)
 - <https://www.inaturalist.org/>
 - <https://www.bumblebeewatch.org/>
- The U of MN Bee Lab is also a great resource to learn more on honeybees and native bees. Their website offers a lot of great information.
 - <https://www.beelab.umn.edu/>
