**SUBJECT: Construction Notice  
Bass Lake Estates (Pike Creek) Drainage Improvement Project  
City Project WR220001**

Dear Property Owner:

The Cities of Plymouth and Maple Grove, in partnership with the Shingle Creek Watershed Management Commission (SCWMC) and the MN Board of Water and Soil Resources, are implementing a stream restoration and maintenance project this winter near your home.

This project will help address erosion issues and improve water quality in Pike Lake and will involve cleaning and restoring portions of the creek, repairing damaged storm sewer infrastructure, and constructing new / maintaining existing water quality improvements.

Construction is anticipated to start the week of November 21<sup>st</sup>, and the project is anticipated to be completed by early spring. The contractor will restore areas as they complete work and will revisit the site in spring 2023 after snowmelt to conduct spring planting.

Project information can also be found on the city website at:  
[www.plymouthmn.gov/departments/public-works/project-spotlight/water-resources-projects](http://www.plymouthmn.gov/departments/public-works/project-spotlight/water-resources-projects)

The page will be updated as the project progresses.

If you have questions or concerns about the project, please contact Ben Scharenbroich at 763-509-5527 or [bscharenbroich@plymouthmn.gov](mailto:bscharenbroich@plymouthmn.gov).

Sincerely,

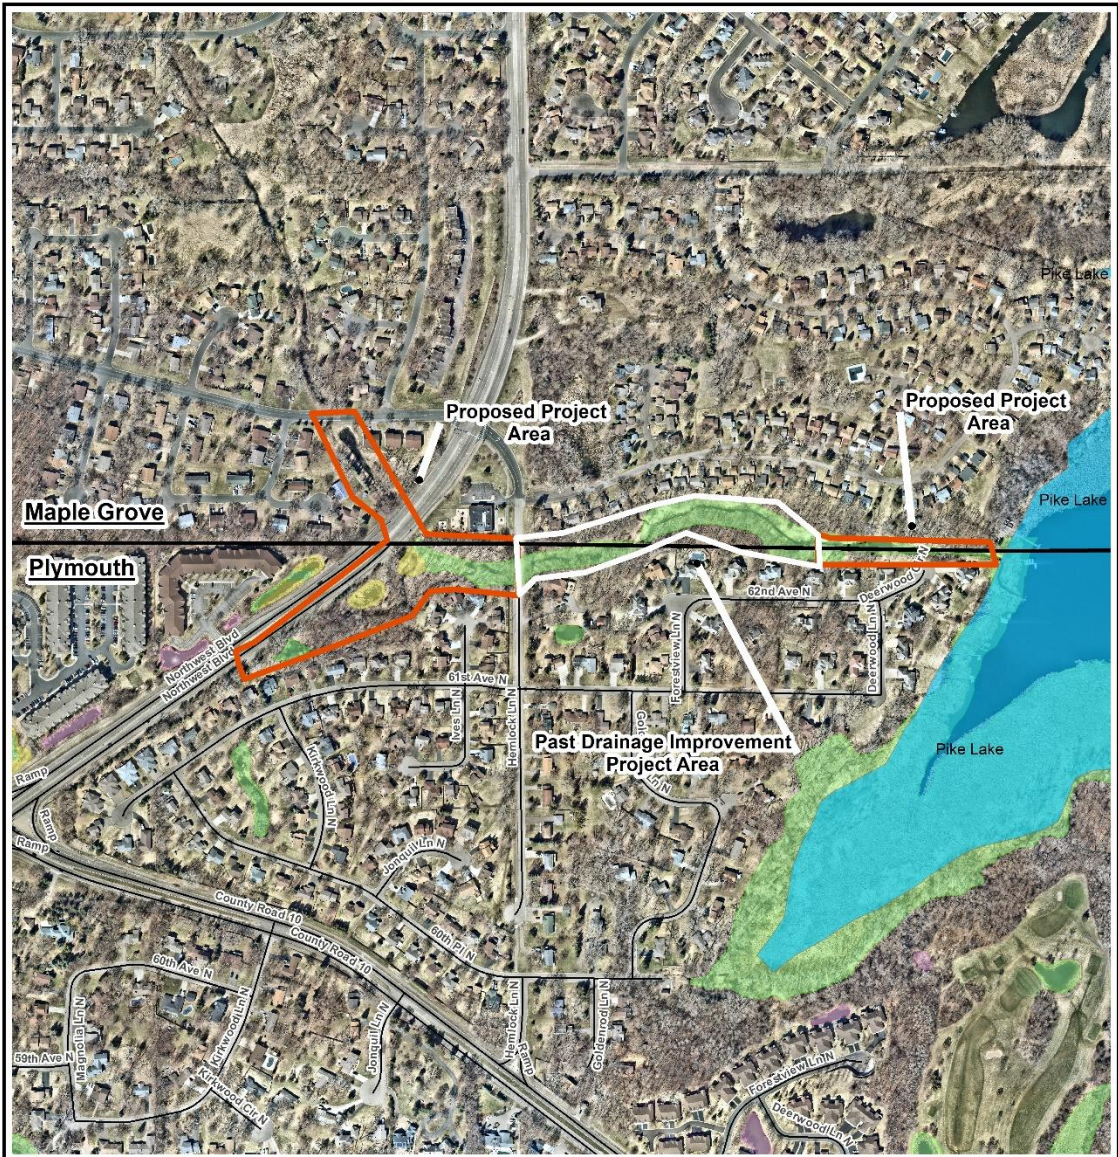

A handwritten signature in blue ink that reads 'Ben Scharenbroich'.

Ben Scharenbroich  
Water Resources Supervisor
