# 36th Avenue Rehabilitation Project

The City of Plymouth plans to make improvements to 36th Ave from Zachary Ln to Hwy 169, with construction planned for 2025. In the coming weeks, surveyors and project team members will be in the area collecting information. During this process, 36th Ave will remain open to traffic, however, occasional lane closures may occur.

During the next two years, the city will prepare plans for and collect feedback on the proposed improvements. The first public meeting is planned for fall 2023.

 Project Area

12224 Nicollet Ave  
Burnsville, MN 55337
